

Hypnagogic Art

Painting: A room in a spaceship which is ascending through the atmosphere. The walls are covered with a cloth-like, very smooth, taut, light purple, material. On a kind of bench which is merely a rectangular platform is arranged a row of blue rockets. Above them is an open window. There is a suggestion of a movie- or stage-set or artist's studio about the whole scene -- e.g., a suggestion that the walls are only plywood. Through the window we see clouds and yellowish-green blue sky.
