

# Hypnagogic Art

Painting: Huge, scythe-like grass blades, yellow/gold/brown, that march across the entire painting, which is very large, say, eight feet high by twelve feet wide. In the background, a babyblue sky with a few fluffy clouds. In the lower center, an irregular black area in which we see something left behind from a picnic, perhaps a child's red truck; immediately to the right, the silver head of a large wood screw.
